

**PLEASE NOTE!****Lubrication Guide:****Initial greasing:**

These **DEUBLIN** Rotating Unions are factory greased with „KLÜBER BARRIERTA L55/2“.

Relubrication: „KLÜBER BARRIERTA L55/2“ only

Relubrication intervalls and amount of grease for operation of 24 h per day:
Per **DEUBLIN** Rotating Union monthly approx. 11g (at 130°C –200°C)

Please note:

BARRIERTA-Grease should never be used with other mineral and/or synthetic grease.

Exact relubrication intervalls have to be determined in the field, because many facts (such as vibrations) cannot be included in the theoretical calculations.

MODIFICATIONS SUBJECT TO CHANGE!
